

iRecord® Music

High fidelity audio recording the easy way

.....

iRecord® Music directly records to your iPhone®, iPad®, iPod® touch, iPod®, PSP®, Walkman® and other USB devices quickly and easily without a computer.

.....

Features:

- Records from any analog audio source with auto level control support. Sources include CD/DVD player, cassette player, LP, computer, internet radio, jukebox, VCR, PVR/DVR, cable box, satellite TV box, TV.
- Direct audio recording to USB based personal media players (PMP), smart phones, and cell phones.
- Supported devices include iPad, iPhone 4, 3GS iPhone, 3G iPhone, iPhone, iPod touch, iPods, PSP, Walkman, Nokia® N series phones, Creative® Zen, Sandisk® Sansa, Toshiba® Gigabeat, and almost all brands of USB based MP3 players, MTP devices and other general USB mass storage devices.
- Built-in storage of 2GB for local recording and storage.
- Standard USB flash drive when connected to a PC/Mac®.
- Supports lossless audio recording formats such as FLAC, WAV beside MP3 and AAC compression.
- Recording can be previewed through headphone Jack.
- Voice recorder for recording memos, meeting and lectures.
- Transfers automatically the internally recorded audio contents to an attached MP3 Player (media-kiosk).
- Basic MP3 player.
- Powered via the unique USB battery cap when recording/playing to/from internal storage.
- MP3 recording bit-rates and audio codec can be selected through a PC/Mac configuration utility.
- Automatic file splitting feature, with each song appearing as a new file.
- Charges the portable media player battery while recording or otherwise.
- Easy firmware up gradation.

iRecord Music for all

Enables everyone to enjoy music, on almost any device. Simply connect an analog audio source to iRecord Music and record away.

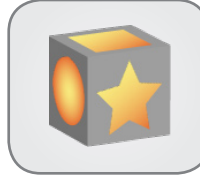

Music sharing made easy

Record to internal 2GB storage of iRecord Music and later sync with a PMP to share music and audio with family and friends.

Legacy capture

Digitize old vinyl albums, cassettes, for playback on your MP3 player or computer.

Simplicity at its best

The unique one-touch feature makes operation simple—just press one button to record, play, or transfer.
